To whom it may concern, I am very opposed to the planned development of the Sierra Hot Springs. I have been going to the springs for a long time and love it just the way it is. I enjoy going into town and eating at the local restaurants and patronizing other local businesses. The people of that community deserve tourist business just as much as the hot springs itself. If the development goes through, I will stop going to the area at all because it will just be another big, crowded enterprise, the kind I come up to Sierraville to escape. Please consider my comments and scrap the idea of future development plans. Thank you, Patricia Levitan

Hello Patricia,

Thank you very much indeed for sharing your views on the proposed development. I will forward your email to the Board of Supervisors, the Planning Department and the Planning Commission on your behalf. I will also post it on the community website (shsprings.org) within a few minutes.

Sincerely,

GASV
